"It is not necessarily the disabled soldier who is to be pitied; not the man who has lost an arm, or a leg, or has been blinded, but the man who with all his limbs, his health and his strength, comes back with a piece of shrapnel in his moral back-bone. Happiness is obtainable only through work—is possible only for a man who successfully finds his way back to productive activity. Self-mastery, self-reliance and purposeful self-direction are essentials on the part of the returned man himself for successful repatriation."—Lt.-Col. Mulloy, the "Blind Trooper," Toronto, Feb. 20, 1919.

DOMINION HOSPITAL - TORONTO

INTRODUCTION

It is much more interesting, and less fatiguing, to recall past experiences by pictures, pen pictures, photographs or sketches than by a studied review of dull statistics or accurate figures. So we present this pictorial review of the activities and personalities of the D.O.H. We present it with the consciousness that it may leave out much, and that it may fail in accuracy of proportion, but it may serve to commemorate a great Canadian Institution.

In this Hospital it has been possible to treat to a surgical finality all classes of war injuries. Artificial appliances have been fitted with painstaking accuracy, and adequate training has been given in the efficient use of such appliances. Perhaps the outstanding feature of the work is that it has been carried on intensively; that is, that the staff has worked full time, and each case has been so persistently followed up that each patient has felt that he was treated as an individual. Every effort has been made to rid the disabled man of bad influences coincident with enforced idleness. At the same time that he has been fitted with an artificial appliance, he has been quietly but constantly presented with the prospect of his altered outlook on life, so that the process of adaptation to further environment might be less irksome. Eternal vigilance has been the price of success. It is felt that the rehabilitation of a few men will be delayed so long as sensational newspapers, political egotists and the extremist element in returned soldier organizations mistake disorderliness for heroism, and noisy public agitation for statesmanship. We have the greatest faith in the returned men as individual future citizens—if they are kept free from patronage and pity. Every one of them has graduated from an experience where essential honesty, unselfishness and courage were esteemed. Give them time to train their judgment, and their influence will be momentous.

It is quite impossible to enumerate here all the organizations and individuals who by donations and gifts have amplified the Government provision for the comfort of patients. It is safe to say of the Toronto and Ontario public that nothing has been suggested without an immediate and liberal response. But that is not all—the various organizations have constantly anticipated our needs and have supplied valuable executive direction, and by well-organized and intelligent visits the ideal of the ultimate individual home has been kept before each patient. It is our impression that all these activities have been justified, and that Canada will in due course secure an ample return for a generous investment. The Toronto Branch Canadian Red Cross Society, "Soldiers' Comforts," Military Service Department Y.M.C.A., Knights of Columbus, Rotary Club, Princess Theatre, Toronto Ball Club and a host of other praiseworthy organizations have in a systematic manner undertaken cheerfully a very important part in rehabilitating partly broken men. We believe it has been a pleasure to them to honor our wounded men, and we gratefully acknowledge the intelligent public spirit which prompted such service.

The Dominion Orthopaedic Hospital first opened its doors for the reception of patients on the 1st of February, 1919. A month later there was a formal opening, on which occasion the then Minister of Militia, General Mewburn; General Fotheringham, Director of Military Services; Mr. K. J. Dunstan, the President of the Toronto Branch of the Canadian Red Cross Society, and other prominent citizens took part.

Since the Hospital was opened, over 3,000 of Canada's disabled fighting men have been cared for. These cases are classified as follows:—

Amputations—

Right Arm	122
Left Arm	118
Right Leg	415
Left Leg	410
Both Arms	4
Both Legs	41
Right Arm and Right Leg	2
Right Arm and Left Leg	2
Left Arm and Left Leg	1
Both Legs and Left Arm	1
Facial Cases	185
Nerve Injuries	257
Miscellaneous (for the most part fractures or injuries to bones and joints)	1,449

The visit of the Prince of Wales on August 26, 1919, is perhaps most easily recalled of D.O.H. happenings. The war presented the charming heir to the British Throne with the unique opportunity for close acquaintanceship with the Empire's loyal soldiers. In taking leave of the Hospital, he said: "I am very pleased to have had an opportunity of seeing your enormous Hospital and the splendid men who are patients here. It makes me very sad to see how terribly injured many of them are, but I am very proud of them."

The Hospital has been visited by His Excellency the Duke of Devonshire, Governor-General of Canada; His Honor the Lieutenant-Governor of Ontario; General Pau, the famous one-armed French strategist; General Maurice, formerly Chief of the General Staff, British H.Q.; General Sir Arthur Currie, Canadian Corps Commander, and by other distinguished soldiers and publicists.
